National Church Residences is a leader in integrating housing with supportive services. As an innovative leader, National Church Residences is consistently improving services and standards of care for the people we serve. We provide an array of health care services that allow seniors to age at home. We also offer the formerly homeless and disabled an opportunity to live healthier and more satisfying lives by integrating housing and supportive services.

National Church Residences is a not-for-profit organization. Founded by the Rev. John R. Glenn and four Ohio Presbyterian churches in 1961, National Church Residences is certified as a 501c(3) charitable organization. The Rev. John R. Glenn formed National Church Residences out of a Christian commitment to serve older adults housing, social, and human needs.
National Church Provides a Person-Centered Care System

As a resourceful and ever-growing organization, National Church Residences is committed to transforming the way that seniors and others live and thrive. We take a holistic approach with services across the health care spectrum, resulting in the best possible care for each individual. Service coordinators play an essential role, linking residents to resources within National Church Residences and their communities.

Our care system includes:

- **Adult Day Health**
  National Church Residences Center for Senior Health provides comprehensive adult day services for adults with cognitive and physical impairments.

- **Aging at Home Medical Practice**
  Providing on-site, integrated, person-centered primary care in housing environments allows National Church Residences to demonstrate better care, better health and lower costs.

- **Assisted Living**
  We provide Assisted Living, bridging the gap between living alone and living in a nursing home.

- **Behavioral Health Services**
  For our supportive housing residents, services include assessment and referral, crisis intervention, case management, and integrated behavioral and primary health care.

- **Continuing Care Retirement Communities**
  Helping our residents live full lives, from the intelligent design of our residences to health and wellness programs and a wide range of professional services and care facilities.

- **Home Health Care**
  National Church Residences Home & Community Services provides Medicare- and Medicaid-certified visiting nurse teams who serve seniors offering affordable alternatives to skilled nursing and assisted living, so they can stay active and independent in their own homes.

- **Hospice**
  Compassionate, comprehensive end-of-life care is provided through a team approach to our clients and their families in a private home or homelike setting.

- **Innovative Fire House Program**
  This sponsored program provides a service coordinator working in a firehouse to field referrals from firehouse staff, police and citizens, connecting seniors with services.

- **Memory Care**
  State-of-the-art retreats in our communities assist patients with Alzheimer’s disease and dementia in aging gracefully in a manner that supports physical, emotional and spiritual needs.

- **Non-Medical Home Assistance**
  We provide comprehensive, non-medical home assistance with the objective of keeping seniors active and independent in their own homes.

- **Outpatient Therapy Services**
  Focusing on our clients, we help them to achieve their goals with therapies that include physical, occupational, and speech and community re-entry programs.

- **Rehabilitation Centers**
  We pride ourselves on our comprehensive team approach that provides each client with the rehabilitation care that they need.

- **Senior Housing**
  We are the nation’s largest not-for-profit developer and manager of affordable senior housing and services.

- **Service Coordination**
  Our coordinators link and refer clients to available resources, allowing them to age in place in their homes and enhance their quality of life.

- **Skilled Nursing Homes**
  Our communities are staffed with caring nursing professionals dedicated to helping our clients experience the abundance of life in later years with the quality of life they desire and deserve.

- **Supportive Housing for the Homeless**
  Helping residents gain a sense of order to their lives in many important aspects, including employment, social and health needs.

- **Transitional Home Choice Program**
  We facilitate the steps needed to help a consumer transition from a long-term care facility to a home in the community.
