TESTIMONIAL

"I've been doing so much better since I've been getting help. It's the little things that the aide does that helps me out a lot. I am no longer afraid to get out of bed or to get in and out of the tub because I know the aide is here to assist me. I hate to feel like a burden on my daughter and now I don't have to be. I really appreciate all of the help I have been receiving and I don't know what I would do without it."

-- E. Humphries, 76
